

## Yash M. Patel

Age : 21 Years

Sex : Male

PID : 555

## Sample Collected At:

125, Shivam Bungalow, S G Road,  
Mumbai

Ref. By: Dr. Hiren Shah

Registered on: 02:31 PM 02 Dec, 2X

Collected on: 03:11 PM 02 Dec, 2X

Reported on: 04:35 PM 02 Dec, 2X

## PREALBUMIN

Investigation	Result	Reference Value	Unit
<b>PREALBUMIN, SERUM</b> Turbidimetric Immunoassay	<b>25.00</b> <b>Normal</b>	16.00 - 30.00	mg/dL

### Clinic Use :

The prealbumin blood test helps your doctor determine if you're getting enough nutrients -- namely, protein -- in your diet. It is done in your doctor's office with the simple taking of a sample of your blood.

Prealbumin is a protein that's made by your liver. Your body uses it to make other proteins.

### Low levels caused by:

- Malnutrition - Not enough zinc in your diet
- Liver disease
- Cancer - Chronic illness
- Inflammation or infection
- Digestive disorders
- Hyperthyroidism

### High levels caused by:

- Pregnancy
- Kidney problems
- Hodgkin's disease
- Iron deficiency
- Hyperactive adrenal glands
- Steroids
- Alcoholism

Thanks for Reference
